Estimated ag	e of wiring system:	14 years		Evidence of addition	ons/ No if	yes, estimated a	ge:	years
Installation re	cords available? (Regul	ation 651.1)	N/A	alterations:	Date of last i	nspection:	26/10/20	06
A EXTENT AND LIMITATIONS OF INSPECTION AND TESTING								
	e electrical installation c							
100% of the installation.								
Agreed limitations including the reasons (see Regulation 653.2):								
No Lifting of floor boards or inspection of loft space.								
Agreed with:								
Operational limitations including the reasons:								
The inspection and testing detailed in this report and accompanying schedules have been carried out in accordance with BS 7671:2018								
(IET Wiring Regulations) as amended to 2018. It should be noted that cables concealed within trunking and conduits, under floors, in roof spaces, and generally within the fabric of the								
building or underground, have not been inspected unless specifically agreed between the client and inspector prior to the inspection.								
An inspection should be made within an accessible roof space housing other electrical equipment.								
	ARY OF THE CONDI							
	for a summary of the ge ssment of the installat				electrical safety.			- 11
continued us	se*:			-		SATISFACT		-11
* An unsatisfactory assessment indicates that dangerous (Code C1) and/or potentially dangerous (Code C2) conditions have been identified.								
		ne suitability o	f the installa	ation for continued u	se on page 1 is s	stated as 'UNSAT	ISFACTORY	/', I/We
Where the overall assessment of the suitability of the installation for continued use on page 1 is stated as 'UNSATISFACTORY', I/We recommend that any observations classified as 'Code 1 - Danger Present' or 'Code 2 - Potentially dangerous' are acted upon as a matter of urgency.								
matter of urgency. Investigation without delay is recommended for observations identified as 'FI - Further Investigation Required'.								
Observations classified as 'Code 3 - Improvement recommended' should be given due consideration. Subject to the necessary remedial action being taken, I/we recommend that								
the installation is further inspected and tested by:						s or change of		
Note: The proposed date for the next inspection should take into consideration the frequency and quality of maintenance that the installation can reasonably be expected to receive during its intended life. The period should be agreed between relevant parties.								
incluid of our redeenably be expected to receive during its intended me. The period should be agreed between relevant parties.
