

## DOMESTIC ELECTRICAL INSTALLATION CONDITION REPORT

Requirements For Electrical Installations - BS 7671 IET Wiring Regulations

					1	Report Refere	nce:		LGC, 28		
1 DETAIL	S OF THE P	ERSON (	ORDERING TH	E REP	ORT						
Client:	Brunel management										
Address:	Brunel Chambers Devonshire place St Helier Jersey										
2 REASON FOR PRODUCING THIS REPORT											
Reason for producing this report:											
Safety assessment requested by client.											
Date(s) on which inspection and testing was carried out: 20/01/2020											
3 DETAILS OF THE INSTALLATION WHICH IS THE SUBJECT OF THIS REPORT											
Installation Address: No 28, La Grand Clos , St Helier, JE2 3BB											
	<i>.</i>				Evidence of	additions/	NI ir			_	
-	e of wiring syst		14 years		alterations:			es, estimated	_		years
	cords available		-	N/A			e of last in	spection:	26/1	0/200	)6
4 EXTENT AND LIMITATIONS OF INSPECTION AND TESTING											
Extent of the electrical installation covered by this report:											
100% of the installation.											
Agreed limitations including the reasons (see Regulation 653.2): Inspection where access is freely given. Limitation of inspection of cables installed behind ceilings and walls. No											
furniture is to be moved by engineers. Insulation resistance on circuits will only when we can guarantee no item on the											
circuit can be damaged. Bath panels are not to be removed for inspection.											
Agreed with:	instantions in sluu	alia a 46 a 4a									
Operational limitations including the reasons:											
The inspectio	on and testing d	letailed in t	his report and ac	compai	nvina schedu	les have beer	n carried ou	it in accordance	ce with B	S 7671	1.2018
The inspection and testing detailed in this report and accompanying schedules have been carried out in accordance with BS 7671:2018 (IET Wiring Regulations) as amended to 2018.											
It should be noted that cables concealed within trunking and conduits, under floors, in roof spaces, and generally within the fabric of the building or underground, have not been inspected unless specifically agreed between the client and inspector prior to the inspection.											
			n accessible roof							opoon	011.
5 SUMM	ARY OF THE	CONDIT	ION OF THE IN	STAL	LATION						
See page 3 for a summary of the general condition of the installation in terms of electrical safety.											
		installatio	on in terms of it'	s suita	bility for			SATISFAC	TORY		
* An unsatisfactory assessment indicates that dangerous (Code C1) and/or potentially dangerous (Code C2) conditions have											
been identifi			5		. ,	•	, ,		,		
6 RECON		NS									
Where the overall assessment of the suitability of the installation for continued use on page 1 is stated as 'UNSATISFACTORY', I/We recommend that any observations classified as 'Code 1 - Danger Present' or 'Code 2 - Potentially dangerous' are acted upon as a											
matter of urgency.											
Investigation without delay is recommended for observations identified as 'FI - Further Investigation Required'. Observations classified as 'Code 3 - Improvement recommended' should be given due consideration.											
Subject to the necessary remedial action being taken, I/we recommend the								or change o	f tenant/	owne	r
the installation is further inspected and tested by: Note: The proposed date for the peyt inspection should take into consider:						ion the freque		-			•
Note: The proposed date for the next inspection should take into consideration the frequency and quality of maintenance that the installation can reasonably be expected to receive during its intended life. The period should be agreed between relevant parties.
