

DOMESTIC ELECTRICAL INSTALLATION CONDITION REPORT

Requirements For Electrical Installations - BS 7671 IET Wiring Regulations

Report Reference: LGC 51

					Report Reid	erence.		LGC, 51	
1 DETAIL	LS OF TH	E PERSON	ORDERING TH	IE REP	ORT				
Client:	Brunel m	anagemen	t						
Address:	Brunel Chambers, Devonshire Place, St Helier, Jersey, JE23RD								
O DEACC	ON FOR R	BOBLICIN	O TIME DEPON	-					
			G THIS REPOR						
Reason for producing this report: Safety assessment requested by client.									
Date(s) on w	hich inspec	tion and test	ting was carried ou	ıt:	20/01/2020				
3 DETAIL	LS OF TH	E INSTALL	ATION WHICH	IS THE	SUBJECT OF THIS	REPOR'	ī		
Installation Address: No 51, La Grand clos, St Helier, JE2 3BB									
					-				
Estimated ag	e of wiring	system:	14 years		Evidence of additions/ alterations:	No	if yes, estimated	age:	years
Installation records available? (Regulation 651.1) N/A Date of last inspection: 26/10/2006									
4 EXTENT AND LIMITATIONS OF INSPECTION AND TESTING									
Extent of the electrical installation covered by this report:									
100% of the installation.									
A aroad limita	stiana inalya	ling the rece	one (one Degulati	on 650 0	ν.				
Agreed limitations including the reasons (see Regulation 653.2): Inspection where access is freely given. Limitation of inspection of cables installed behind ceilings and walls. No									
furniture is to be moved by engineers. Insulation resistance on circuits will only when we can guarantee no item on the circuit can be damaged. Bath panels are not to be removed for inspection.									
circuit can i	be damag	ed. Bath pa	inels are not to b	e remo	ved for inspection.				
Agreed with:									
Operational limitations including the reasons:									
The inspection and testing detailed in this report and accompanying schedules have been carried out in accordance with BS 7671:2018 (IET Wiring Regulations) as amended to 2018.									
It should be r	noted that c	ables conce	aled within trunkin		onduits, under floors, in				
					ifically agreed between thousing other electrical			or to the inspe	ction.
5 SUMM	ARY OF T	HE COND	ITION OF THE I	NSTAL	LATION				

See page 3 for a summary of the general condition of the installation in terms of electrical safety.

Overall assessment of the installation in terms of it's suitability for continued use*:

SATISFACTORY

* An unsatisfactory assessment indicates that dangerous (Code C1) and/or potentially dangerous (Code C2) conditions have been identified.

6 RECOMMENDATIONS

Where the overall assessment of the suitability of the installation for continued use on page 1 is stated as 'UNSATISFACTORY', I/We recommend that any observations classified as 'Code 1 - Danger Present' or 'Code 2 - Potentially dangerous' are acted upon as a matter of urgency.

Investigation without delay is recommended for observations identified as 'FI - Further Investigation Required'.

Observations classified as 'Code 3 - Improvement recommended' should be given due consideration.

Subject to the necessary remedial action being taken, I/we recommend that the installation is further inspected and tested by:

5 Years or change of tenant/owner

Note: The proposed date for the next inspection should take into consideration the frequency and quality of maintenance that the installation can reasonably be expected to receive during its intended life. The period should be agreed between relevant parties.
