<b>3</b>	<b>PURPOSE OF THE REPORT</b>
Purpose for which this report is required:	To confirm the electrical installation is to British Standards BS 7671

<b>4</b>	<b>EXTENT OF THE INSTALLATION AND LIMITATIONS OF THE INSPECTION AND TESTING</b>		
Extent of the electrical installation covered by this report:	100% of the installation is covered by this report.	Agreed and operational limitations of the inspection and testing (include reasons and person agreed with):	Inspection where access is freely given. Limitation of inspection of cables installed behind ceilings and walls. No furniture is to be moved by engineers. Insulation resistance on circuits will only be carried out when we can guarantee no item on circuit can be damaged. Bath panels are not to be removed for inspection.

The inspection and testing detailed in this report and accompanying schedules has been carried out in accordance with BS 7671:2008 (IET Wiring Regulations), as amended to 2015. It should be noted that cables concealed within trunking and conduits, under floors, in roof spaces, and generally within the fabric of the building or underground, have not been inspected unless specifically agreed between the client and inspector prior to the inspection. An inspection should be made within an accessible roof space housing other electrical equipment.
